

PrimaLuna ProLogue 8/ Classic

An amazing value! Unique tube-based clock. At its best, with the board upgrade, the Eight closes in on even the most expensive competition. It's blessed with plenty of boogie factor, superb clarity, sensuous mids, and lovely harmonic bloom. Its portrayal of the soundstage is wonderfully transparent. Out of the box, upper octaves are a bit grainy and bright. Tube dampers help significantly, as do vintage preamp tubes. DO, 183
